

Many of us are longing for a child

As many as one in four Kiwis experience infertility during their lifetimes. Infertility isn't just medical – it challenges hopes and dreams, and often causes grief and stress.

During Fertility Week, join us for information, support and guidance. There's also advice for how people can support whānau or friends who are experiencing infertility.

Coffee and Chat

Meet others 'in the same boat' for mutual support, friendship and understanding. Share as little or as much as you like - there's no pressure or expectation. We consistently hear how our groups change people's lives through support, validation and helping to 'lighten the load'.

Men, women, couples and support people are all welcome!
